

Urban Resource Link- accelerating urban reforms

India Urban Portal

<http://www.indiaurbanportal.in>

The Urban Resource Link is an information support service on key reform areas for cities under the JNNURM programme. JNNURM has increased demand for information support for planning and implementing projects and reforms. Administrative Staff College of India (ASCI), Hyderabad has responded to this need through the Urban Resource Link (URL) initiative. This is in partnership with the World Bank Institute and supported by the Ministry of Urban Development, Government of India. The Urban resource Link was officially launched on 31 January, 2007 by Mr. S. Jaipal Reddy, Union Minister for Urban Development, Government of India.

The purpose of the initiative is to provide information support to urban managers and associated sector professionals in the context of the reforms agenda under programmes such as the Jawaharlal Nehru National Urban Renewal Mission (JNNURM).

Urban Managers and professionals can forward their enquires and access ASCI's database. Enquiries may be submitted online on <http://url.asci.org.in> or emailed to url@asci.org.in. It could be also faxed to 040-23316211 or telephone 040-66534346.
